

DOGMA

THE BOOK OF GOD'S EARTH

I was born to the ground to taste the earth, the man-made suffering

During my earthquake, I learned about the dead side of people, the immense damage they caused, and the suffering

Why am I here??

To end the existence of man.

Choosing that little meaning, man grew! All those who walk in their tracks.

I understood the man, the human beings, He! He did not understand the world, the meaning, existence, existence of the world

**All the physical mental pain I am experiencing is nothing to the knowledge that I give up in my daily life
All those who came before you all have experienced your life full of shyness**

Everybody tasted it and left a way to not feel good at each other's flesh feelings

Why did I come here ?! Why do I judge myself with you east?

To get to know the beginning of existence and the end of being.

Because all that was unimaginable so far will be imaginable

When and why I was born here

**On the Earth hate has become so large! What has never happened for thousands of years
Greed brought hate to this people here on earth
Because a single continent of the country did not have such hate as Magyar.**

1971,04.24. in the early evening I was 18.00 to your world as a twin pair of a boy

I became a perfect replica of my body, then as I grew up, I grew up, and my age-headache was overgrown at the age of 5 I realized the purpose of my conscious existence

**Unfortunately, we were born in a very poor family where we were judged because we were born
My mother brought me alone with my twin and a girl with my sister**

**Our Father has left us denied, a mother with three children in the form of a life in which to be a Gypsy, a Roman = death because she is! It was Hungarian
As far as I could take care of them, but here on earth I was just a Man, no more or less**

I saw the end of the world at the age of five, woke up at three o'clock in the morning and the present world disappeared from me.

At that moment I saw the end when there was nothing I found myself in the middle of a huge desert, sitting in the sand in the two legs under myself

At that moment, I realized that only the sand was on the whole planet and I was

I sat in the sand in the direction of SOUTH, behind me

NORTH

**The day was in the south, the sun was yellow, and the
air was yellow**

2

**My skin was yellow and sand as I was sitting there
feeling that all life forms on earth were destroyed
Then I noticed that on the horizon at the height of two
eyes on the eastern and western side a layer of sand
rose from the ground and slowly floated from the north
to the east.**

**Then I felt someone watching me from a very high
angle**

Two eyes!

From the top of the North Sky

**These two eyes were so strong that my body was almost
shivering**

**I didn't look back east, I knew this Power was an
everlasting force**

**Then I found myself in the room, sitting on the bed
Since then, this vision has been repeated every five
years, still today**

As I said, I was born to a very poor mother

**In this country, this was the only Mother who deserved
my birth on earth**

He was full of heart, caring selfless

**Unfortunately my twin brother paid a big price for
becoming his brother**

**The suffering that we have suffered physically beyond
human imagination**

**For our Father's sins, for the sins of others, to suffer
something we have not done**

**People living in our environment have told our Mother
every day to get rid of us, give us at an educational**

**institution or sell us because these two boys will never
be a normal honest man**

**They were judged by our Father and by our
appearance**

**They were judged for everything that could be
imagined**

3

**When our Mother went to work to give us bread
The people in our environment came in and beat us in
our house**

Our Sister was never hurt by us alone

Because we only feared two of us

**People, women, men, women, boys, are here to build
something awesome**

**Big Dad at the request of the people and women at the
age of 8 moored us to a huge tree and struck us with a
strap of trousers to see if we could die**

**When our mother came home from work, crying out,
she took us home and took her home**

**We were lying unconscious for days, our mother had
no money for a doctor**

**It was not a day that a week had passed before we
wouldn't hurt us**

Unfortunately, this is how we didn't get mature yet

**We had no boy or girl friends because they were
banned from their parents**

**At the age of ten, I realized that I wasn't here to live
the everyday life of man**

**My visions, the inexplicable multitude, made me aware
WHO? WE? And why am I?**

**At the age of 11, I crossed the border of perception,
entered the world of the dead / later on.**

At the age of 13, I took the fight against all earthly

power to be an ally

**Man wouldn't even think what forces are working on
this earth**

And both, conscious consciousness with free will

**What MIBENELT about the human mind is unable to
understand**

**These forces surround our daily lives surrounded by
limits**

4

**And they are in every moment in our immediate
vicinity**

**The really great forces / Fungi live in trees in cacti
plants. But I can prove this without question**

EVIDENCE

**Already the Bible mentions the existence of these
forces;**

**Only today Ti! An average person has forgotten and
takes away this fact**

Reminded!

Cain, Abel. Biblical great figures

**Abel puts a sacrifice for God in front of a tree, Cain
builds an altar there, and his belt was not accepted by
God even Abel**

BUT THE REALITY IS THE BETTER

JESUS

**The last dinner that man hasn't done so far, I reveal
the true nature of it**

What was the message of Jesus' last supper.

**And even though only three of the 12 Apostles knew
what Jesus wanted**

Listen now!

**This is my last dinner with you, one of you making a betrayal today
Anyone who can find him will know where? And how to search
I am always with you, this is the Bread, you can eat it
BECAUSE OF MY BODY
This is the wine here, I have eaten it for my sake.
That's what Jesus said, He! Where and how to find it
The key to all this is the wheat itself**

5

**Jesus himself was the bread, life oh! The Wheat
If you understand you already know every wheat has a portrait of Jesus
Two eyes nose mouth
Germinate the wheat if it grows in the germ mortar
This will be the body of Jesus, pour water on it and let it out for a night, let it touch one night Jesus
You will not be able to eat the next day, you will not have to drink it at noon in the morning and at the dawn
Then take it to the elbow, eat it, then look at him face to face**

**So Jesus is the Wheat
And this is just one of many great powers
Thousands of years ago, the Aztec, Tolt, all other extinct cultures knew the great Mescaline.
The Pejot, this is a cactus, a teacher with masterful knowledge
Defender like you in God
How many cultures are there today who pay tribute to trees and cacti because they have found a great power teacher in it**

These are just the ones you know, but what about the unknown forces?

Like the tree of life that still stands before you, like Marijuana you consume on a daily basis

My mind showed these forces, the nature of these forces

I knew how to approach them, I knew where to find them

I knew how to fight them, how to defeat them

At the age of 20, I talked to them like you did to me

They have demonstrated their power in their world of knowledge

I was part of it and I became

6

**I SHOULD SHOW IN HUMAN CAPITAL
EVERYWHERE FROM THE EARTH TO DOWN,
EARRINGS BECAUSE THE FOLLOWING
HUMANS HAVE BEEN FULFILLED
YELLOW THE YELLOW, YELLOW THE DAY
YELLOW AIR**

One day I met a huge force, (San Pedro) This is a Cactus

Sincerely, I went to Him, so I approached her as a child to her parents

It took me 2 days to finally get an alliance

A vision, a vision, showed the sign of your alliance

He took him! He was standing in a huge marketplace for thousands of years back in his reign

Ancient Greek-style market with huge columns, stone tables, never seen wooden barrels at night when I noticed that something was coming down from the height to the ground

I looked up and saw a flower-shaped object descending down

Then, when he was in a visible height, I saw a throne sitting on a chair, a human figure, two side-by-side, two other human figures.

Sitting on the throne nodded by the time the two other men disappeared from her, and they were already there with me

By the time I got caught, I was kneeling between them, they caught my arms, and who was on my right side pushed some cold metal like material between my right ribs and my hip bone. I felt that the cold something pushed me down to the middle of my belly, and then I looked up and they were already standing on both sides of the throne.

Then they headed back towards / and the alliance was concluded

Humanity has been praying, sacrificing, trees for plants since the beginning

It was the foundation of all religions

Because when our ancestors got to know, another strength! They had a fear of them, bad things happened to them, so they thought they could recognize evil

**But if they knew a Force! What helped them was better for them, soaring, worshiping and contacting with light
YOU HAVE BORN BREEDING Joy, DARK, AND
LIGHT, YOU HAVE BEEN LOSS AND GOOD!
THERE IS LATER GOD AND THE WILD**

Think about it!

How much Deity was born here on earth and so much evil

Everyone's name has become Good for Bad

All of these were born by centuries of cultures

**And when the man was put to an end to the gods of
Pagan, one God, an evil Lucifer, came
This is also created by man as their ancestors because
they cannot do their fears and requests
If the man had listened to his surroundings, himself,
the world, the power of his power would have
outweighed his present imagination**

**By now, people who have to survive the last outbreak
have been selected
They are the ones who tasted the seeds of the earth,
tasted their strength, and their knowledge
I hold the world that I can't imagine because of the
hateful, greedy devastating man
Those who will be invisible to their eyes will receive
freedom. THE FREEDOM
Because passion is not hating now, their hearts are full
of dreams with a dream of their brains
For whoever eats to eat the seeds of the plants of the
earth, he began his free life
He sees all other eyes, not seeing people in his
companions when he sees what.
He sees not judging by the outside, not judging by the**
